

MTN Pay4Me

Zero airtime is a challenge no more with the launch of MTN's new reverse calling service called MTN Pay4Me. By allowing you to accept and then pay for their call, MTN Pay4Me will keep you in touch with your family and employees **even when they have no airtime**. Whether you're a parent, a friend or an employer, MTN Pay4Me allows you to rest assured that you can be contacted when it matters most.

Using MTN Pay4Me is simple:

- Dial 127 and the receiver's MTN number from your MTN phone e.g. 1270831234567
- The receiver can choose to accept the call or not.
- If the receiver accepts the call then they will be charged 99c per minute regardless of their price plan, as long as they are on the MTN network.

Whitelisting and Blacklisting

With MTN Pay4Me you can whitelist numbers. Whitelisted numbers can call you using MTN Pay4Me without you needing to accept the call. Whitelist (or blacklist, if required) numbers by following these easy steps:

- dial ***141*5#** or ***127#**
- add the number you want to whitelist
